

# STONY PLAIN SUN.

VOLUME FOURTEEN

STONY PLAIN, ALBERTA, THURSDAY JUNE 21, 1934

Whole No. 717

## ROYAL CAFE, STONY PLAIN.

(Phone 38)  
Where Good Food and Good Service Meet.  
ICE CREAM Always on Hand—Phone in your orders  
and have them delivered.  
Quality Foods at Very Reasonable Prices.  
FIRST-CLASS FURNISHED ROOMS TO RENT.

**L. M. LARSON, Proprietor.**

## NOTICE!

To Ratepayers of Municipal District  
of Inga No. 520.

Ratepayers in arrears of Taxes (not  
Consolidated) have still time to save  
4% penalties being added by making  
payment on or before 30th June, 1934.

### Successful Poultrymen!

Are demanding the "Gillespie  
Maid" brand poultry and Dairy  
Feeds. Why? Because they are  
scientifically blended, machine  
mixed, contain the highest quality  
ingredients and produce the  
desired results.

See our nearest elevator agent

**GILLESPIE GRAIN CO. LTD.**

## BARGAINS ON PAINTS!

Now in the middle of the Painting Season, during the  
whole month of June, we are offering you Special Low  
prices on Four Lines of Paints, from a

**OIL SHINGLE STAIN, \$1.25 per gal.,**  
to a Truly First Grade Quality

**HOUSE PAINT at \$2.25 per gallon,**  
Made of Pure Linseed Oil, Lead and Zinc Pigments.  
GOOD SELECTION OF COLORS.

**Armbruster Lumber Co.**

## The New Chevrolet.

Sedans, Coaches, and  
Coupes.

Now on view at

**Sommerfield and Mayer's**  
Service Garage, - Stony Plain.

### Stony Plain and District

Mr and Mrs Edw. Hoffman  
are planning a motor trip to  
Vancouver.

Miss Clara Trapp took her  
Conservatory of Music exams  
in Edmonton on Saturday.

The dance at Kelly's Hall  
tomorrow (Friday) night prom-  
ises to be a popular affair.  
The Elks' band will play.

Exams in the Public school  
classes commenced Monday,  
and are now proceeding.

Mike's Curve, at the High  
way and Meridian road corner,  
has been getting another  
layer of gravel. Mike promises  
to have this saucer track in  
good shape this summer.

In another column will be  
found the new schedule of the  
mails which are to arrive in  
Stony Plain.

The amateur troupe from  
the City which presented the  
play "High Horse" at Hol-  
born Friday night met with a  
good reception. A dance fol-  
lowed.

The Saturday Eve dance at  
Edmonton Beach was well at-  
tended. These events are be-  
coming quite popular.

The enterprising Commu-  
nity at Muir Lake will stage  
another annual picnic Monday  
July 2. There will be a series  
of games, to which all are in-  
vited. Lunch will be served.  
Dance in evening.

### The Mail Schedule.

A change in the mail service,  
which came into effect on Sunday  
last, is now in force. Following is  
the new schedule.

From the East and to West—  
Tues. Thurs. and Sat., at 10:37  
P.M.

From the West and to East—  
Mon., Thurs. and Sat. at 4:51 A.M.  
Mail for East will also be de-  
spatched to west bound train and  
transferred west at Jasper.

Mail for dispatch to both East  
and West should be posted before  
10 P.M.

Reg. dispatched and received  
with every mail.

### Romano Navarro on Thurs'dy

The picture shown on Thursday  
last at Kelly's Hall by Mr Good-  
man, "Take a Chance" was up to  
the usual good run. The comic  
"Red Dog" kept the audience high-  
ly amused during its showing. The  
news reel was very interesting.  
For this coming Thursday, the  
21st, a picture shown for the first  
time in Stony Plain will be "The  
Barbarian," with Romano Navarro  
in the leading role. Romano is said  
to be a wonderful singer, and the  
showing of this picture here on the  
21st should fill Kelly's Hall.

### A Gravelled Road to Edson.

After persistent efforts which  
were made by the Edson Board of  
Trade, the minister of public works  
announces that a first and second  
course of graveling for the road  
to Edson is now projected. When  
completed, this will insure a sur-  
face thru road from that town to  
Edmonton. Tenders for the work  
have been called. The section to be  
graveled under this work is the  
most important yet remaining to  
be done on the Jasper Highway.

## HARDWICK'S

**WOMEN'S ANKLE SOX**, fine rayon silk, fancy  
colored, assorted colors and trims, 25c. pr.

**WOMEN'S DRESSES**; new arrivals in Style Right  
Wash Dresses; sun and tub fast broadcloth;  
sizes 34 to 46; each 79 cents.

**ANKLE SOX FOR CHILDREN**—Fine finish,  
assorted colors, 19c pair.

**GIRLS' WOPPIES**—Black or blue denim, neat  
trim, elastic waist, \$1 25

**DENIM WOPPIES** for Little Boys; elastic waist  
and neat Monogram trim; 4 to 8 years, 79c.

**MEN'S SHIRTS**—White, Tan, Green, Blue;  
sizes 15 to 18; \$1 each.

Get Your **PIONIC SUPPLIES** at Hardwick's.  
**GROCERY SPECIALS**—Lots of them.

Get It at **HARDWICK'S.**  
AGENTS ALBERTA DAIRY POOL.

## STONY PLAIN MOTORS,

AGENTS FOR

**Plymouth and Chrysler Cars.**

**UNION 76 GASOLINE.**

**UNION MOTORITE OILS.**

Agents for Superox Battery, Quick Re-charging.

**Goodrich Tires, Tubes, Accessories, Etc.**

**GRANT & MILLER,**  
PHONE 38, STONY PLAIN.

## DUFFIELD'S SPORTS DAY! SATURDAY, JUNE 23rd.

**Horse Racing. Basket Ball.**

**Wagon Races, Performing Ponies,**

**Tug-of-War, Horseshoe Contests,**

**Baseball. Games. Good Prizes.**

11 Schools Competing for the P. Faulks Trophy.

**BOXING**—Kid Gruden v. Wynne Burnett—3 rounds.  
3 Good Preliminaries.

**WRESTLING**—Mike Crutcher v. Mavis De Bleick;  
Johnny Karvellas v. Gil Kautson.

4 8-minute Rounds or 2 Falls.

Admission, Adults 25c. Children Free.

## Big Dance in the Evening!

**MOOSE HALL, SATURDAY, JUNE 30**

**THE SCREEN EVENT OF THE YEAR.**

**"TWO HEARTS IN  
WALTZ TIME!"**

**A Musical Romance of Gay Vienna!**

**Intoxicating Music! Delightful Humor!**

**Showing at 4-6 and 8.30-10.30.**

## War Debt Revision Looms

Great Britain's action in deferring payment of the \$261,791,000 installment due the United States on June 15, has thrown the whole war debt problem again prominently into the field of international controversy. It poses the United States government with the inescapable necessity of initiating discussions preliminary to a complete review of the war debt situation. It forces a showdown.

Great Britain, of course, will not be satisfied with a mere review. It wants revision of the terms of settlement—revision drastically downward. It wants as much consideration from its creditor, as it (a creditor) has given its debtors. At the very worst, it seeks as generous treatment, on principal and interest, as was given France and other countries by the United States.

In failing to make even a so-called "token" payment on the installment due June 15, Great Britain informed the United States that the terms of the agreement between the two countries in respect of war debts imposed "a burden which was both unreasonable and inequitable in relation to other countries." The facts justify this statement. Whether intentionally or not, Britain has been adversely discriminated against.

Great Britain, according to the records, borrowed \$4,777,000,000 from the United States, a large per centage of which was not for its own use, but on behalf of allied countries during the war. The money was spent in the United States for war material and was the real foundation of the extremely high wages paid munition workers in that country during the war. Since the Baldwin agreement which fixed the terms and conditions of repaying the war loans, Great Britain has made installment payments aggregating \$2,025,000,000. Because of the high comparative interest rate paid by Britain, however, London is still indebted to Washington, in the sum of \$4,713,785,000. That is to say, after paying back more than two billion dollars, Britain still owes more than the original debt.

Obviously, the situation clamors for reasonable adjustment from that aspect alone. There are other, equally cogent, reasons why revision should be made. There are irrefutable arguments why the debt problem should be solved finally and amicably. That war debts should remain a subject of international controversy, cropping up periodically to stir prejudices and animosities, is a reflection upon the intelligence of the two great English-speaking nations towards whom the world looks for preservation of concord among the countries of the world.

Great Britain's agreement to pay installments in the amount of approximately \$262,000,000 was predicated, in the first place, upon expectations of a similar amount being paid by France and other European countries in respect of war debts due London. Britain lent more than she borrowed. In order to avoid financial and economic chaos, however, the British government decided to suspend all claims against debtor nations for payments on war debts, and take the position now that, if it must pay the United States in full, it must exact payment of a corresponding amount from its own war debtors. The position is quite understandable—and undoubtedly reasonable.

"Such procedure," said the British note to Washington, "would throw a bombshell into the European arena which would have financial and economic repercussions over all five continents, and would postpone indefinitely the chances of world recovery."

Consequently, Britain politely suggests the United States should do its bit "to speed world recovery by recognizing the realities of the situation and revising present agreements on a payable basis."

The question is not that Great Britain is anxious to escape payment of its indebtedness. Suggestions have emanated from London, from time to time, for liquidation of the entire obligation by lump sum payment. Washington has not viewed this suggestion favorably, heretofore. In fact, an intransigent position has been taken by some of the most vocal of American legislators who take the "pound of flesh" viewpoint. Furthermore, Britain's failure to make even a payment on account—the "token" payments such as were made in June and December 1933—has been attributed to the Johnson Act, passed this year, which specified that any nation not making payment in full on the due date, would be considered as in default.

The British note is couched in language which the people of Western Canada will appreciate and approve. It strikes a manly note of independence and forthrightness. While declaring payment would be deferred until "it becomes possible to discuss an ultimate settlement of inter-governmental war debts with a reasonable prospect of agreement" the note asserts the British government has no intentions of repudiating its obligations.

### Movable Birthday Date

A Milwaukee man's sliding scale of birthdays brought dismissal of his application for an old age pension. He was listed as 45 in a life insurance policy, 58 in county relief records, 66 in his marriage papers, and 70 in his pension application. Severity in the minimum age for eligibility to a pension.

If it wasn't for the help of a woman most self-made men would be out of luck.

### Are Unknown Specimens

Three crane specimens collected by King Leopold of Belgium, were received at Amherst College for classification by Dr. Charles P. Alexander, professor of entomology. The flies, rare unknown specimens of Tipulidae, are long-legged, and slender, resembling mosquitoes.

### Girl Castaway—Good Heavens!

Sailor—Now, now, don't get in a stew.

## Few People Escape Attacks Of Summer Complaint

Summer Complaint may be slight, or it may be serious, but you can't tell when it seizes you how it may end. Allow the profuse diarrhoea, the vomiting and purging to continue, for a day or two, and you may become weak and prostrated.

Just as soon as you feel any looseness of the bowels go at once to your drugstore and get a bottle of Dr. Fowler's Extract of Wild Strawberry and check this unnatural action before the weakening looseness can get started.

Don't experiment. Get "Dr. Fowler's". It has been on the market for 88 years.

## Making China Seas Safe

Marine Department Continues Work To Provide Guidance For Ships

Typhoons do not tell the whole story of the China Seas. Fog may assail the shipping on the Chinese coast at almost any time, and storms independent of the typhoon are frequent. The coast itself is as dangerous and the sets of its tides as treacherous as any in the world. Casual islands and shoals demand the utmost vigilance, and the seamen who man Chinese junks are no mean masters of the ancient craft of navigation.

The lighting of the China coast is not a century old. The National Lighthouse Service was founded about the middle of the nineteenth century by Sir Robert Hart, who was authorized by the government of the day to start a system of lighting for the benefit of navigation. Sir Robert possessed himself of a few qualified experts, and he and his handful of foreigners established the nucleus of a service which, in the Chinese Maritime Customs, now provides guidance not only to ships at sea but to the countless craft navigating the rivers of China and in particular the Yangtze.

The romance of the Marine Department of the Chinese Maritime Customs has yet to be written. This organization, originated by Sir Robert Hart and his devoted helpers, has developed unostentatiously, and its traditions and efficiency have been maintained by successive Inspectors-General.

For the last five years or so bandits have waylaid the staff engaged in managing the channels for navigation. They have removed beacons and buoys—which have been promptly restored—and have subjected the Customs launches to such assiduous malignance that those craft now have to be protected by metal plates and by the use of machine guns. Near Anking, the capital of Anhwei, there is Christmas Island, a favorite spot for the bandits in the Lower Yangtze. Twelve robberies of lighthouses or lightboats occurred there 1931.

But the work proceeds, the course is kept open. The Tungting Lake has been lately surveyed. Improved marks have been established and the River Inspectorate has added to its store of knowledge and given it to the river public in thousands of notices.

## Flag Made By Prisoners

Union Jack Secretly Made In German Camp During War

Made in a German camp during the World War, a British Union Jack was used during the unveiling recently of a memorial in Manchester, England. Ex-Petty Officer James Allen, who brought the flag home, said it was made by prisoners in Sprottau, Silesia. "A Russian, who was allowed out," he said, "used to smuggle in a little bit of cloth at a time, and in the tail of a coat another Russian secretly made it up to the instructions of the British. We produced it first at the funeral of one of the British prisoners, and in all it was used on 21 such occasions. Only once did the Germans show any objection. The flag was drying on the wall, and when an inspecting general saw it he stopped, snarled, 'Shweinhunde', and passed on. Each member of his staff did likewise."

## Japanese Trade Invasion

New Penetrating Traditional United States Markets

Japan's steady successful invasion of traditional United States export markets was disclosed in the department of commerce annual world economic review for 1933. The report showed larger Japanese shipments of competitive articles to the United States, big export increases to Latin America, a Japanese victory over American manufacturers in the battle for the Philippine textile trade, and increasing sales in Europe, Africa and elsewhere.

## Buried On Mile Range

Col. John Hopton, a famous rifleman who is well known to Canadian and other overseas marksmen who have competed at Bisley, was buried in accordance with his expressed wish at the firing point of a 1,000-yard range on his own estate, in Hertfordshire. He had competed at Bisley Empire meet for 36 years.

## Almost Instant Relief From Neuralgia

For Quick Relief Say ASPIRIN When You Buy

Now comes amazingly quick relief from headaches, rheumatism, neuritis, neuralgia... the fastest safe relief, if it is said, get discovered. Those results are due to a scientific discovery by which an Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking. The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly when you swallow it. And this is ready to work almost instantly. When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN's quick relief, be sure the name Bayer in the form of a cross is on every tablet of Aspirin.

## Zoo Fatality

Lions In Cage Kill Victim As Horrified Spectators Watch

While a crowd of horrified spectators looked on, four lions in a pen-air zoo at Whipsnade, 12g., killed a zoo employee who had gone into their pit to recover a visiting bird. The owner of the hat and several other persons who tried to save the victim, Stanley Lewis Stenson, were driven back by the lions, two of which were eventually killed by keepers before they could recover Stenson's body.

Stenson, employed in the catering department of the zoo, apparently decided suddenly to attempt to retrieve the hat and went into the enclosure between the outer barrier and the railing surrounding the pit in which the lions are kept.

As he crawled along the top of the inside railing two of the lions reached through the bars and began mauling him.

Stenson was unable to get away from the lions' claws and several spectators went into the place to try to pull him away, but were not successful as the two other lions joined in the attack through the bars.

Stenson then fell into the pit, striking his head on the concrete about 16 feet below. The lions dragged him further into the pit and killed him as the horrified spectators screamed and several women fainted. The keeper had to shoot two of the lions before they were able to drive the others into their cages at the far end of the pit.

## Shined Shoes Of Prince

Veteran Bootblack Had Many Experiences In Fifty Years

Hardy Bert, of Digby, Nova Scotia, veteran bootblack, once shined the shoes of the late King Edward VII, who was then Prince of Wales, and a visitor to Toronto. He will celebrate his 78th birthday in July. A master of his trade with more than 50 years' experience, he has put up his "old stand," in the same place for the past 35 years. When he was younger he travelled, and shoes to which he applied polish and brush were the pride of their owners in New York, Toronto, Halifax, Saint John, and many other cities.

"Hardy Bert," as he is called, says that he has seen lean years, but looks forward to a bright future because he is driving an old-age pension.

Grandma was helping Peggy make out a list of little guests for her holiday party.

"How about the Morton twins?" grandma asked.

"Well, there's no need to ask them both," Peggy answered, "they're 'sactly alike."

## Invents New Material

Belgian Major Says It Will Make Airplanes Fireproof

Major Van de Rollechem of the Belgian Army declares he has invented a material which will make airplanes fireproof. Plates of asbestos are soaked in three chemical baths and then baked at high temperatures. Tests were made recently near Brussels. To demonstrate its value documents were put into two boxes made of the new material, and these were plunged into a blazing fire for a quarter of an hour. The papers remained unharmed. The papers were then soaked in gasoline and ignited. The flames burned themselves out without any injury to the plane. To show his confidence the major sat for 10 minutes in the pilot's seat with the plane blazing all round him. The temperature in the cabin never rose above 74 degrees.

## Animals As Witnesses

Were Used in Sardinia Until Few Years Ago

Animals were used as court witnesses in Sardinia up to a few years ago. When a solitary householder killed an alleged burglar he was brought to trial and made to swear that the homicide was justifiable. The oath was taken before one of his dogs, cats or birds that witnessed the killing. If the animal did not manifest some contradictory sign the prisoner was set free.

Germany ranks first in the number of motorcycles owned and operated.

## THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile

—Without Calomel

You are "feeling punk" simply because your liver is sluggish. Bile is the key into your health. Digestion and elimination are both hampered, and you feel as if you are being poisoned. What you need is a liver stimulant. Something that goes further than salts, mineral water, oil, laxative candy or chewing gum or rogalect which only opens the bowels—causing the real cause of trouble to remain.

"Take Carter's Little Liver Pills. Purify your blood. New bile is formed. Bile enters the system. Ask for them by name. Refuse substitutes. See at all druggists."

Improves flavour of meats, fish and vegetables. Pays for itself many times over. All dealers, or write—

Appelhof PAPER PRODUCTS

AMSTERDAM, HOLLAND

## Movement Of Low Pressure Area Has Decided Effect On Rainfall In Western Provinces

The thirst quenched, the drought is forgotten. A few showers of rain fall, and the refreshments of the soil allays the anxiety bred in the drought. The scare is forgiven. This fallibility is human, but it cannot divert the climatic cycles. These go their way, advancing or receding. They are beyond all laws, and either may be ruled by fixed phenomena or willed by Nature's unpredictable whims. Which of these orders our climate, none can say. The meteorologists cannot. They can, after all, record climate only as it reveals itself.

And the overwhelming climatic revelation in this part of the world in recent years is that its low pressure area has moved. It used to lie, roughly, across the Kansas line. It has gone north, and is estimated to be far north of here, perhaps in the Barrens.

This movement of the low pressure area has definite climatic effects, which can be stated in simplest, though probably inexact, terms. The laden warm air from the Caribbean Sea provides the moisture for the centre of this continent. It rolls up the vast central region, passing on northward across these prairies.

As this laden air reached the low pressure area, due process produced the rain that fell on the prairies. Without that low pressure area, above which the warm air rose, there could not be the distilling process, and there would be no rain. So, when the low pressure area moved, the moisture in the air from the Caribbean was not distilled, but was carried, unaffected, beyond us. The rain that ought to have been falling on us for the last few years is presumed to have been falling far north in the Barrens.

Why the low pressure area has moved is not explained. When it will return, or that it ever will return, or whether it has any cyclical rotations, is not known. Its movement, whatever its cause, is independent of human motives. It cannot be stayed, it cannot be replaced. Whether it has reverted to its southern latitudes, or whether it ever will, the scientists seem unable to say.

The present rain may be a result of a return of the low pressure area to a line south of here, but there is nothing to insure that return remaining fixed. But if it has returned, and means to stay put, the consequences will soon assert themselves on the meteorological charts. The laden air from the south will have its moisture extracted to feed in freshening rain on our fields, again to germinate our seeds and give the yields of our culture. The relief is a boon, a blessing, but it depends on the future of the low pressure area. So long as that stays south of us, our fruitfulness shall not be stinted. Should it persist in staying far north of us, drought must continue over the centre of the continent, as it has done more or less for the last few years.—Winnipeg Free Press.

### Saskatchewan Game Fish

#### Now Taking Trout From Lakes That Never Had Fish Before

Canada now has game fish in formerly barren lakes in the Maritime and prairie provinces, and in British Columbia. J. A. Rodd, director of fish culture, Dominion department of fisheries, told the senate committee on sealing and fisheries.

"Fishermen in Saskatchewan are now taking 10-pound trout from lakes that never knew fish before," Mr. Rodd stated. "European brown trout were transplanted to the Cypress lakes, Saskatchewan, in 1931, and Regina fishermen are taking trout up to 10 pounds."

"Whitefish from Lake Winnipeg were transplanted to the Quill lakes, Saskatchewan, which are highly alkaline," Mr. Rodd said. "These fish are propagating."

Japan is the earthquakeiest country on the globe. It averages six tremors a day.

W. H. U. 2051

### Conserving Game In Africa

#### System Of National Parks Similar To That In Canada To Provide Sanctuary For Wild Life

The Minister of the Interior has just received from the Secretary of State for External Affairs, Canada, a concise report on the International Conference for the Protection of Fauna and Flora of Africa. At the conference, which met in London, the following governments were represented: Union of South Africa, Belgium, Great Britain, Egypt, Spain, Abyssinia, France, Italy, Portugal, Anglo-Egyptian Sudan.

The conference concluded that the natural fauna and flora of Africa were in danger of extinction or permanent injury and steps are to be taken for their preservation by the governments represented. Canada, in company with all other nations, would suffer from the destruction of these resources of Africa but the chief interest to Canadians in the result of the conference is that it was the unanimous conclusion of the delegates that the best way to preserve the fauna and flora was by the establishment of National Parks in representative districts within which areas the destruction of wild life and of flora would be prohibited.

In this matter of the establishment of National Parks in virgin areas to preserve them in their primeval condition Canada is in line with the foremost countries of the world. Moreover the fortunate thing is that Canada began this work early in her development with the result that it has been done in the most economical manner. In this way there are being conserved, both for Canadians and for visitors from abroad, areas of grandeur and loveliness containing indigenous animals and plants—resources which might otherwise have been completely lost to the nation.

#### Likes Being Cave Man

Tourists on the Elchberg, near Gloggnitz, Lower Austria, came upon a wild-looking man in a cave. At first he fled from them, but eventually spoke to them and proved to be an educated man born in Vienna. Long unemployment had caused the man to flee the haunts of men. He lives on berries and mushrooms, and says he has no wish to return to civilization.

Wife: "The night before last you came home yesterday. Last night you came home to-day. If you come home tomorrow tonight, there'll be trouble!"

By Ruth Rogers

**FREE AND EASY TO WEAR AND SMART! IT CAN HAVE PUFFED SLEEVES OR WEE CAPED SHOULDERS**

Growing daughter will look adorable in this cute dress with its smart sophisticated lines. A cool crinkled cotton in China-blue and white, so perfect for summer, made the original model. It's so practical, and needs no ironing. See wee sketches! It can have wee puffed sleeves or a wee caped shoulder—pattern provides for same. Red plaided gingham, yellow pique, plaided seersucker, etc., are sturdy mediums.

For daintier wear, handkerchief-finish lawn, voile and batiste prints are attractive. It's surprisingly simple to make. Style No. 806 is designed for sizes 8, 10, 12 and 14 years. Size 8 requires 1½ yards of 35-inch material. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

## British Scientists Will Carry On Scientific Investigation In Canadian Arctic Archipelago

### Demand For B.C. Vegetables

#### Fraser Valley White Growers Find Market On Prairies

From comparatively small beginnings, commercial vegetable production by white growers of the Fraser Valley has developed this year into a million dollar industry.

Large quantities of produce are not only being supplied to Vancouver markets, but at least 70 carloads of vegetables will roll to the prairie provinces this season.

Until a few years ago, Oriental growers practically controlled production and marketing of the vegetables of the lower mainland. Diminishing returns in the dairy and poultry industries forced the white farmers to develop other sources of income and vegetable production has become a vital factor in helping the farmer to balance his budget.

The venture has proved a pronounced success.

Through close study of application of fertilizers, crop rotation, use of select seed, and modern cultivation methods, the white growers in B.C. to-day are producing a standard of vegetable unexcelled.

### Fat Stock Show Postponed

#### Saskatoon To Hold Annual Exhibition Early In August

Saskatoon's Fat Stock Show, announced for June, has been postponed until the annual exhibition early in August, according to manager S. W. Johns. It was found that the quota for export is now practically filled and that in all probability there would be quite a reduction in cattle prices during June. The next year's quota, however, starts on July 1, and although this means keeping the cattle another six weeks the exhibition authorities decided it would be a kindness to the exhibitors to delay the sale.

### Frog Disturbed Prisoners

Because the nocturnal croakings of an imprisoned frog disturbed the slumbers of county prisoners, workmen tore out the wainscoting of the basement walls of the county jail at Bellingham, Wash., in an effort to free the sequestered croaker. Sheriff T. C. Fraser ordered the frog hunt after receiving complaints for the past two weeks from prisoners.

"Yes," said the enthusiastic motorist, "she'll do eighty-five." "Per hour, per gallon, or perhaps?" Inquired the wag.

It was announced by Honourable Thomas G. Murphy, Minister of the Interior, that permission had been granted for a party of British scientists, headed by Professor J. M. Wordie, M.A., of St. John's College, Cambridge, to carry on scientific investigations and collect specimens along the eastern and southern coasts of Ellesmere Island and westward to the Parry Islands.

The expedition, which sailed from Aberdeen, Scotland, on May 24 in the "Heimann" a seventy-ton sailing schooner will proceed to the Canadian Arctic archipelago via Cape Farewell, Greenland, stopping at Disco Island to refuel. From there the expedition will follow the west coast of Greenland and it is expected will cross Melville Bay in June. If ice conditions permit Smith Sound will be negotiated immediately, if not the expedition will continue along the Greenland Coast to Etah and thence cross to Bache Peninsula.

Working south along the east coast of Ellesmere Island, the ship will turn into Jones Sound, where surveys of the coasts of the islands to the north will be made. Ornithological, botanical, geological, and ethnological investigations will also be carried out by the various members of the party. Returning east through Jones Sound the expedition will turn south and enter Lancaster Sound in an attempt to navigate the icy passage of Barrow Strait and reach Melville Island in the heart of the archipelago. The dash to Melville Island is expected to take place in August, and upon its conclusion the expedition will proceed down the Baffin Island coast and cross Baffin Bay to Cape Farewell on the home-ward voyage to England.

The Dominion government's permits cover the taking of such scientific specimens as migratory birds and game animals, excepting muskox which are rigidly protected; geological and botanical specimens; and will also allow the investigators to examine Eskimo ruins. The party which is headed by Mr. J. M. Wordie, M.A., includes the following for whom permits have been granted: Sir John Hanham, botanist; Dr. T. G. Longstaff, medical officer and naturalist; C. W. Dalgely, ornithologist; Lieut. W. C. Fletcher, R.N., ice navigator and surveyor; T. T. Paterson, ethnologist and archaeologist; Ian Cox, geologist and anthropologist; H. P. Hanham and H. W. Ritchie, camp assistants.

### A Meadow That Floats

#### Strip In Germany Rises When Rains Swell River

When spring rains swell the tiny river Hamme, near the small city of Osterholz, in Hanover, Germany, and it floods its banks, a strip of meadow on the south side, from two-thirds of a mile to a mile wide and three and one-half miles long, begins to rise, with all its trees, including even great oaks and birches. The whole meadow is afloat, and even in normal times one feels it give under the feet. Some 200 years ago the river is said to have loosened a small farm with house and barns and carried it for an hour downstream so gently that the sleeping family did not waken.

### In Hundred Years

The Toronto Globe says one hundred years ago the boat was made that a "swift" passenger vessel was making the trip from Kingston to Toronto in sixteen hours. In those days also completion of the coach journey between the city and Hamilton "during daylight hours" was guaranteed. During the century there has been some speeding up both in land and water transportation.

### Receives Appointment

Lieutenant Desmond Burke, noted Canadian rifleman and once winner of the King's prize at Balesy, has been appointed assistant medical officer of the Governor-General's Footguards. He recently graduated in medicine from Queen's University. Lieut. Burke has worn the Guards' uniform for several years.

## HAPPY RE-UNION AS GERMAN SOCIALIST MEETS WIFE IN ENGLAND

Frau Seger (left), wife of Herr Gerhard Seger, formerly a Socialist member of the Reichstag, arrived at Croydon Aerodrome, London, after her release from a German concentration camp near Danzig, where she was met by her husband. Frau Seger was arrested as a hostage after her husband had escaped from a concentration camp and it was through the efforts of Mrs. M. C. Tate, British Member of Parliament (right), that Frau Seger was released. The happy couple had not seen each other for six months.

WORLD HAPPENINGS  
BRIEFLY TOLD

The House of Commons in committee of ways and means, approved the amendment to the gold tax moved by Hon. E. N. Rhodes, finance minister.

The disarmament conference adjourned June 12, for a long "breathing space," in which governments will attempt to settle outstanding political difficulties.

Expansion of the British air force, announced some time ago, contemplates the addition of 50 squadrons, totalling roughly 600 machines, it was learned.

Fire of unknown origin destroyed the Quaker Oats elevator at Delisle, Sask. More than 9,000 bushels of grain in the house were ruined. The loss was covered by insurance.

John Duncan, veteran, railway telegrapher, died recently in Toronto, aged 91. He succeeded to the job of the late Thomas Alva Edison, famous inventor, held as telegrapher on the Northern Railway.

The Victoria Daily Times, first published on June 9, 1884, celebrated its golden jubilee by publishing a special anniversary edition. The paper was founded by the late John Grant, M.L.A. for Cassiar at the time.

Declared as a record without rival in book selling in South Africa, 150,000 copies of the new Afrikaans Bible have been sold in the South African Union and the Rhodesias since its issue a few months ago.

Soviet Russia's crop sowing plan for this year was 88.2 per cent. complete the first week in June. On that date 228,328,000 acres had been seeded. It is the largest area ever cultivated by the Soviet Union.

## Market For Timothy Seed

Shortage In Production Is Opportunity For Western Growers

Domestic production of timothy seed in Canada is still far short of consumption, it was noted in a report of the Saskatchewan Department of Agriculture, indicating an opportunity for growers in the West. Timothy ordinarily yields from 200 to 300 pounds of seed per acre, and growers have received on an average about 8½ cents per pound for the seed basis No. 1 grade, over the past three years. Canada uses annually about ten million pounds of timothy seed and until 1931 some nine million pounds of this was imported from the United States. Domestic production since 1931 has been greatly stimulated by educational activities and the prospect of a large domestic market. As a result, production increased from less than a million pounds to some five million pounds in 1932, but declined to about 2,700,000 pounds in 1933.

## Melons Save Bank Notes

Unusual Happening In Fire At Constantinople Law Courts

A few weeks ago a great fire destroyed the Law Courts at Constantinople. The damage done was very heavy, but the chief concern of one official centred in a safe in which he had placed money to the value of \$5,000. Ultimately the safe was located amid the debris, and to all appearances it was a mass of warped metal, but the door was forced, and it was found that the money placed there by the cashier could be saved. The official had placed in the safe two large melons and they had given off sufficient steam during the fire to prevent the complete destruction of the notes. Some damage had been done but the numbers of the notes were visible and the State Bank accepted them.

## Appreciates The Press

It is well to know that there is at least one man in public affairs who has an appreciation of the press, says the Lethbridge Herald. This is Lord Londonderry, Secretary for Air in the British government. Speaking of the British press, he said: "We find the press men fair and helpful, sparing in their criticism and generous in their praise." This is regarding the press in the light it deserves to be regarded.

W. N. U. 2051

## Air Mail Across Canada

Coast-to-Coast Airmail In 19 Hours Is Predicted

A coast-to-coast air mail service in 19 hours, travelling in aeroplanes capable of flying the sky lanes from Montreal to Vancouver at a speed of more than 200 miles an hour, is the hope of Canadian airmen.

Squadron Leader A. T. Cowley, superintendent of air regulations, when in Calgary on an inspection tour, outlined plans for the fast mail service of the future—to be put in operation when economic conditions are better.

The proposed route would take a western aerial trail via Regina, Lethbridge and the Crow's Nest pass to Vancouver, making a direct mountain crossing to the coast. A branch service would be maintained from Calgary to Lethbridge.

## Fair Wage Schedule

New Ruling For Manitoba Applies To Private As Well As Public Works

Hon. W. R. Clubb, Manitoba minister of public works and labor, recently announced a new fair wage schedule for the province, applying for the first time to private as well as public works and containing reductions of from five to 10 per cent. from last year's rates for a large section of the building trades.

The new rates become effective June 15 and were worked out after two months' study by the fair wage board. One set of rates is for Winnipeg and territory within a 30-mile radius and another for the rest of the province.

Stone masons have been allotted two rates, 80 cents and \$1 an hour, as against last year's rate of \$1.05.

"Did any of your ancestors do things to cause posterity to remember them?" asked the haughty woman.

"I reckon they did," replied Farmer Comtessel. "My grandfather put mortgages on this place that ain't paid off yet."

## SUNDAY SCHOOL LESSON

JUNE 24

A REVIEW OF THE GOSPEL ACCORDING TO MATTHEW

Golden Text: "Of His kingdom there shall be no end." Luke 1:33.

Devotional Reading: Micah 4:1-5.

1. What does the heading "The Gospel According to Matthew" mean? 2. What do we know about Matthew from the Gospels? 3. What is the tradition in regard to him? 4. What was the earliest record of the life of Christ? 5. In what language was the Logia of Matthew written? 6. In what language were the earliest manuscripts of the Gospel According to Matthew written which have come down to us? 7. In what century were they written? 8. For whom was the Gospel According to Matthew written? 9. What special Jewish phrases does it contain, and what does their use indicate? 10. About when was the Gospel written? 11. In Matthew a complete biography of Jesus? 12. What is the main purpose of the First Gospel? 13. How many quotations from the Old Testament has it? 14. How large a portion of the book is given to the teachings of Jesus? 15. What five great addresses in the book? 16. What part of Jesus' ministry does it omit? 17. How does Matthew group his material? 18. Give its general outline.

## Raining Gold

Peculiar Phenomena Is Reported In India As Result Of Earthquake

The world may talk of gold standards and gold hoarding but in India it has been raining gold. Outlying districts in which seismic disturbances were felt recently, reported a shower of fine powdered gold, and told stories of golden clouds of dust floating low over the country side.

The secret of the color of the dust was revealed when scientists analyzed samples and discovered that the dust harbored fine particles of the precious metal. The dust clouds came as a result of the earth shocks which the scientists suggested forced into the air delicate particles from deep rock fissures.

## OXFORD GROUP AT BANFF

Members of the International Team of the Oxford Group, headed by Dr. Frank Buchman, photographed on the terrace of the Banff Springs Hotel during the North American House Party, Banff, Alberta, June 5-12, 1934.

Back row—left to right: Bob Bowman, Ottawa; Rip Van Winkle, New York; Ted Devlin, Ottawa; W. Graham, Ottawa; D. Grainshaw, Oxford; Peter Phelps, Oxford; Donald Ross, Halifax; Paul Nanton, Winnipeg; Gordon Hunter, Toronto; Bernard Bourdillon, Oxford; Hilson Viney, Cambridge; Jack Ely, New York; Schofield Wihart, Summit, N.J.; Eric Bentley, Toronto; George Wright, Montreal; George Marjoribanks, Edinburgh.

Second row—left to right: Eileen Lawther, London; David Graham, Oxford; Cecil Harveson, London; George Wood, Aberdeen; Alys Smith, New York; Cleveland Hicks, New

York; Roger Hicks, India and Oxford; Roger Faure, Paris; Ferdinand Laun, Germany; Eugene Von Teuber, Czechoslovakia; Victor Kitchen, New York; Mrs. Wood, Boston; Frederick Lawrence, Boston; Kathleen Lawrence, Boston; Howard Rose, London; Paul Petrockine, Oxford; Edward Hill, Oxford and Audrey Haigh, London.

Third row—left to right: Mary Gaddie, Edinburgh; Kathleen Cross, Montreal; Jack Smith, New York; Reggie Holmes, Oxford; Edward Goulding, Oxford; Howie Blake, Washington, D.C.; Hanford Twitcheil, New York; Rev. Blaise Blake, Richmond, Va.; Fred Douglas, Editor, Montreal "Witness"; Jack Creevy, Vancouver; Roland Wilson, Oxford; Marjorie Haynes, Philadelphia; Charles Haynes of Philadelphia; Lawson Wood, Aberdeen; Ray Purdy, Princeton, N.J.

Fourth row—left to right: Madame Beaubien, Quebec; Mrs. Goodwin

Gibson, Toronto; Mrs. Bentley, Toronto; Mlle. Helene de Troy, Zurich, Switzerland; Miss Anne McFarlane, Edinburgh; Jean Morton, Edinburgh; George Light, Warwick; Mrs. Stearns, London; Bill Tollman, Detroit; Dr. Tremillion, London; Carl Vrooman, Bloomington; Mrs. J. A. Wilson, Ottawa; John Rood, London; Ronald McLeod, Toronto; Gerard Senior, Oxford; Kathleen Rose, London; Mary Wilson, London; Janet Biana, London.

Front row—left to right: Mrs. Pleasanton, New York; Ella Lee, Edinburgh; H. A. Armstrong, London; Mary Ferrabye, Montreal; Ellen La Force, Montreal; Bishop Roots, Hankow; Lady Richmond, Princess Rishborough, London; Dr. Frank Buchman, R. R. Coyah, manager of the Banff Springs Hotel; Lowden Hamilton, Oxford; Lady Nanton, Winnipeg; Mrs. Bourdillon, Oxford; Mrs. Charles Cogd, London; Mrs. Slattery, Boston; and Sir Robert Green-Price, Wales.

## An Admiralty Court

Canada Has Passed Another Constitutional Milestone

Canada passed another constitutional milestone recently when the House of Commons gave third reading to a bill designating the exchequer court of Canada as an admiralty court. Admiralty litigation has been heard for years by the exchequer court but under an Imperial Act. The 1929 conference on merchant shipping legislation reported control of admiralty courts was not in accord with the constitutional status of the Dominion as established at the 1926 Imperial conference.

The bill, sponsored by Minister of Justice Hugh Guthrie, gave Canada control over admiralty courts and set forth the necessary regulations. It passed through committee stage in less than five minutes and passed the house without opposition.

## An Uneven Record

United States Leads With Total Of 10,617 Murders

The lowest per centage of murders goes to the credit of Holland, with Great Britain a good second. The highest is to the discredit of Chile, but the highest total is recorded in the United States. In Chile, during 1932, the last year for which statistics are complete, there were 2,913 murders, equivalent to 61 per 10,000, or one murder every three hours. The United States show 8½ per 10,000; the total is 10,617. The highest per centage in Europe goes to Belgium, with 186 murders, but Germany has the largest aggregate (1,223) though this averages only 1.88 per 10,000 of the population. In the nine countries under review the total murders amounted to no fewer than 16,108.

Negro Undertaker (over telephone): "Rastus, your mother-in-law just died."

Rastus: "Is you sure 'bout dat?"

Negro Undertaker: "Shall I bury her or embalm her?"

Rastus: "Don't let's take no chances, brother. Cremate her!"

## Little Journeys In Science

RADIUM

(By Gordon H. Guest, M.A.)

In 1910 Madame Curie culminated many years of efforts when she succeeded in isolating radium and giving to the world a new science, that of radio-activity. This French lady has since become a figure of international importance for her work in connection with radium. Of Polish origin, she began the work with her husband, Pierre Curie, a professor of physics at the Sorbonne, in Paris. To-day she still directs radium research in the Radium Institute, on the Avenue Pierre Curie, in Paris. This institute was built as a memorial to Professor Curie who died in 1906, and thirty workers carry on studies in radio activity, under the direction of Madame Curie.

Radium is taken from pitchblende, where it occurs in very small quantities. It is estimated that three tons of pitchblende, which is sometimes called uranium oxide, contain about one gram of radium. The world supply of radium is said to be about \$100,000 to \$120,000 a gram, but with the discovery of new sources of supply it has come down from \$400,000 to \$100,000 a gram. At the Radium Institute are two grams of the substance, one of which two procured by the Curies in their early work and one which was presented to Madame Curie by the women of America when she visited this country several years ago.

Radium, however, is a long lived substance. In spite of the fact that it gives off extremely concentrated rays of heat and light, it does not diminish appreciably in volume or strength. It is said that one gram of radium would lose half its volume by radiation in 1700 years. Through these calculations scientists have been able to do determinations on the age of the earth, through the study of radio active substances found on its surface.

Because of the extremely strong powers of penetration possessed by the rays given off by radium, it has found many uses in science and industry. Outstanding is the development of its use in the treatment of some types of cancer and of numerous skin diseases.

In industry it is used in the production of a luminous paint, familiarly seen on the faces of clocks and watches.

In recent years large deposits of pitchblende have been discovered in Canada, in the region of Great Bear Lake near the Arctic Circle. It is expected that within the next few years this deposit will increase the world's supply of radium sufficiently to bring down the price considerably.

## The Panama Canal

Building Made Possible Only Through Concessions From British

Arthur Brisbane, protesting in the Hearst papers against Great Britain's failure to pay her debt to the United States, suggests that the Panama Canal rates might well be doubled against her. But the Panama Canal was built under an international agreement whereby the rates for British and American vessels would be the same. It ought not to be forgotten that the building of the canal was only made possible through certain British concessions. — Toronto Mail and Empire.

**DENCOTEA**  
CIGARETTE HOLDER

DENCOTEA Cigarette Holder absorbs the nicotine, pyridine, ammonia and noxious and tarry substances found in tobacco smoke.

Complete holder with refills — \$1.00 postpaid, or from your Druggist or Tobacconist Dealers wanted everywhere.

## U.S. MAY ACCEPT PAYMENT IN KIND ON BRITISH DEBT

Washington.—Replying to the British war debts note of June 4, the United States government has suggested offers would be considered for readjusting the debt or payment in goods and services. Points set forth are:

1. Great Britain would have to pay only the amount of the June 15 instalment to avoid being considered in default under the Johnson law.

2. There is no connection whatever between the debt owed the United States by Great Britain and those owed Great Britain by other countries.

3. The United States government will be glad to entertain proposals for either readjustment of the debt or for payment in goods and services.

"The British government undertook to borrow under its own name and on its own credit standing, and repayment was not made contingent upon the fate of the debts due to the British government," the note said.

The suggestion for this manner of payments made in the note was declared not to be an offer for full payment on such a basis.

"Should His Majesty's government wish to put forward proposals for the resumption of payments, this government would be glad to entertain and discuss them informally."

For instance, no proposal has ever been presented to this government looking towards payments in kind to an extent that might be found mutually practicable and agreeable.

"Any proposals of this or a similar character which promise mutual benefit will be carefully considered for eventual submission to the American congress."

Such commodities as tin, rubber, jute and silver immediately came to the minds of observers as items they studied the note. The world's largest tin mines are largely controlled by Britain. Administration officials, apparently concerned over the United States supply, are lending support to congressional moves to retain present holdings and find a domestic source.

The British Empire is the world's largest producer of rubber of which the United States is the leading consumer.

### Continuing Debt Payment

Pretoria, South Africa.—Disregarding the war debts controversy abroad, the Union of South Africa is continuing her payments to Britain. She has just paid the last six months instalment of £178,850, roughly \$895,000, and intends paying the next instalment in December, regardless of whether the British government reaches a final settlement with the United States by that time.

### Praised Ottawa Accords

London.—The Ottawa accords at the 1932 Imperial conference contributed more than anything else to the improved conditions in England during 1933, Sir Arthur Shirley Benn, M.P., president of the Imperial Federation of Chambers of Commerce, declared here, following a meeting of that body.

### War Vessels Collide

Valetta, Malta.—Two British destroyers collided during naval manoeuvres off this coast recently. The damage was not heavy and there were no casualties. The ships were H.M.S. Acasta and H.M.S. Codrington, reputedly two of the finest of their class.

### Leave For Northern Posts

Edmonton.—Priests, Royal Canadian Mounted Police, mining men, prospectors, trappers, traders and missionaries formed the base of 100 northerners who took train for Waterways, Alta., on the first leg of journeys to sub-Arctic posts.

### Visit World Fair

Chicago.—Captain Maurice Rossi and Lieut. Paul Coder have arrived here from Montreal, to visit the world fair.

W. N. U. 2051

## Three Indian Brothers Committed For Trial

Charged With Murder Of Two B.C. Police Officers

Merritt, B.C.—Trial of three Indian brothers, charged with the murder of Dominion Constable F. H. Gibson on the Canford Indian reserve on or about May 24, will open at the Vernon, B.C., assizes, June 26.

Eneas, Richardson and Alex George were committed to trial by Magistrate A. G. Freeze and were removed to Okalla prison under heavy police guard.

A fourth brother accused of murder, Joseph George, was under medical care in Vancouver. He was granted a further remand until June 21.

Many bloodstained exhibits were introduced during the two-day preliminary hearing. Indian neighbors of the George brothers from the reservation and expert police investigators testified for the crown.

A cheque for \$500, the reward offered by the British Columbia government for the recovery of one or both bodies of the constables, will be turned over to "Big Frank," the Indian, who recovered Gibson's body from the Nicola river on May 26.

No pains have been spared by police in their efforts to avenge the alleged slaying of their comrades. Soon after the constables' disappearance, Attorney-General Gordon Sloan announced "the entire resources of the crown" had been placed at the disposal of the investigators in their effort to obtain a conviction.

## Saskatoon Man Killed

Dental Technician Had Just Started On Business Trip

Saskatoon.—Scarcely out of the city on an extended business trip which was to have taken him to the Pacific coast and through the western United States, Leo Lipkovic, dental technician, met violent death as his car skidded and overturned in the ditch. The accident occurred about 16 miles north of the city on highway No. 5.

Two other occupants of the ill-fated auto, Abe B. Hagedelman, and Louis Wener, explained that Lipkovic had got into difficulties when the car had skidded in loose gravel at the edge of the road. The driver had attempted to pull the vehicle onto the roadway and in so doing overturned it. Coroner A. M. Molloy, M.D., ruled no inquest was necessary.

## Heart Surgery Possible

Cleveland Surgeon Predicts Direct Operations In Near Future

Cleveland.—A new type of heart surgery, promising one avenue of escape from the present tremendous heart death rate, was proposed to the American Medical Association by Claude S. Beck, Cleveland surgeon.

He pictured surgeons in the near future operating directly upon hearts. The hearts will be patched lightly, he predicted, with grafts of tissue taken from other parts of the body.

## SET NEW AIR MARK

Jean Batten, 24-year-old English girl, pictured just before she hopped off from London on her record flight to Australia. The daring ladybird lopped five days from the previous record, held by Amy Molison, whose husband taught Miss Batten to fly.

## May Beat Previous Record

One Pullet Has Chance In Egg-Laying Contest

Agassiz, B.C.—Only one pullet in the annual egg-laying contest at the Dominion experimental farm here has a chance to equal or better the world's record of 357 eggs in 365 days, equalled in last year's contest by the White Leghorn, Derreen 10-L. Barred Rock pullet No. 3, owned by the Delta Land Company, Vancouver, has laid 220 eggs in 224 days to equal the performance of "Dauntless Derreen" at this time last year. Her closest competitor is Barred Rock pullet No. 2, owned by A. Pennington of Agassiz, with 212 eggs.

Pullet No. 3 has laid small eggs, however, and is far behind on points in the current contest with only 201.7. Ranking No. 10, a White Leghorn, leads with 210.6 points, although she had laid only 200 eggs.

## King Receives Delegation

London.—The King received at Buckingham Palace the delegation headed by the Duke of Ursel which came to London to announce formally the accession of King Leopold III of the Belgians. His Majesty expressed sorrow in connection with the death of King Albert, having lost "not only a beloved cousin but also a personal friend."

## Case For Federal Cabinet

Vancouver.—British Columbia's case for the taking over of the Pacific Great Eastern Railway by the Dominion and her claims for better terms under confederation will probably be considered by a committee of the whole federal cabinet some time after prorogation of parliament, Premier T. D. Pattullo indicated.

## Increased Nickel Production

Canada's Output For April Exceeded Only Once Before

Ottawa.—Nickel, essential alloy in the production of armaments, is once more front page news.

The bureau of statistics has announced production figures for April. The total is 12,924,418 pounds, the second greatest month in the history of production in Canada. Only once, back in November, 1929, did Canada's nickel mines exceed such volume.

In the four months ended April 30 last, production ran to 39,888,099 pounds which exceeds that of the corresponding period of 1929 by close to three million pounds. Thus 1934 is now well launched in a record-breaking year in the output of a metal demanded the world over in the making of war supplies.

International Nickel, at Sudbury, the major producer in the world, enlarged its plant after the peak year of 1929 and last April brought its fourth furnace into operation. The company is now running to full capacity. So, it is reported, is Falconbridge, the other large producer in Canada.

Anyone who doubts what is afoot in world armaments factories need only scan the statistics. Canada, it must be remembered, holds a virtual monopoly on this metal.

In 1932 the output was 30,000,000 pounds. In 1933 the total zoomed upwards to 83,000,000 pounds.

And in 1934 the prospect is for a production of about 120,000,000 pounds which will be some 10,000,000 more than the peak year of 1929.

## Recognized For Discovery

Doctor Of McGill University Finds "Balancers" In Blood

Montreal.—World-wide recognition has come to Dr. J. E. Collip, head of the department of biochemistry at McGill University, for his discovery of new substances in blood which play the part of balancers and which may be new personality chemicals. Dr. Collip reported his discovery before the Association for the Study of Internal Secretions meeting at Cleveland with the American Medical Association.

Some physicians who heard of Dr. Collip's discovery believed it might open an entirely new field in medicine. The chemical balancers appear to act as stoppers against effects of the hormones which the body produces from its endocrine glands.

The endocrine hormones in turn regulate growth, energy, color of complexion, sexual development, bodily contours and numerous other characteristics often associated with personality and health.

The medical name for the balancers is "antagonists" and they differ from "antibodies" which the body manufactures to protect itself from disease. One of the "antagonists" has been found definitely in animals, another shows traces, and there is evidence the same chemicals exist in human blood.

## STUDY INCREASE OF COARSE GRAIN ACREAGE IN WEST

Ottawa.—Plans to assist in the readjustment of Western agriculture by increasing the acreage of coarse grains to make up for reduced wheat growing are under consideration here at a meeting of the grain research committee. The group is meeting under the auspices of the National Research Council and is endeavoring to formulate the best suggestions men of science have to offer to Canadian agriculture.

Deliberations so far have centred on the thesis that the acreage sown to coarse grains, barley, oats and flax, in Western Canada might be increased by some 3,000,000 acres without creating an embarrassing surplus. The estimate is based on prospective markets for coarse grains in the United Kingdom and Europe and for feeding purposes in Eastern Canada. Quality and quantity production is needed to take advantage of the markets and research is being conducted along these lines.

C. B. Davidson, of the Dominion bureau of statistics, who opened the discussion of the existing economic situation, advanced the following observations:

1. The carrying out of a policy in regard to barley is the first step to be taken is the reduction of wheat acreage and the improvement in the quality of the wheat crop of Canada (high grade barley is grown in areas which produce low grade wheat).

2. Claims there have been over-expansion and over-production in Western Canadian agriculture cannot be applied to cereals generally.

3. The world trade in coarse grains in recent years has exceeded the world trade in wheat.

4. Wheat acreage in Europe increased by 6,500 acres between 1924 and 1933. The coarse grain acreage remained almost constant.

5. The use of corn in feeding markets is markedly on the increase, particularly in the United Kingdom.

6. Germany is the only importing country which has reduced her import requirements of feed grains.

7. In Eastern Canada there is a demand for feed which barley might meet, particularly if water transportation were used.

8. At the present time Canada does not possess the coarse grains with which she might set out to secure a share of the market available.

## Tourist Body Appointed

Committee Consists Of One Member From Each Province

Ottawa.—A permanent committee to deal with the tourist industry and co-operate with existing organizations developing tourist traffic, has been appointed by the senate.

The committee is appointed of nine members, one representing each province. The senators are: W. A. Buchanan, Alberta; W. H. Dennis, Nova Scotia; W. E. Foster, New Brunswick; R. F. Green, British Columbia; R. B. Horner, Saskatchewan; H. G. Hecken, Ontario; Creelina MacArthur, Prince Edward Island; George Parent, Quebec, and W. H. Sharpe, Manitoba. Except for Senator Sharpe, the personnel of the committee is the same as that of the original special committee. Senator Sharpe was added to the standing committee in order to give representation to all provinces.

## Hungarian Wheat Crop Less

Budapest.—A decline of 3,500,000 quintals in the Hungarian wheat crop was forecast as a result of the prolonged drought. This year's yield was unofficially estimated at 16,500,000 quintals against 20,000,000 last year.

## Death Toll In Hurricane

Teguigalpa, Honduras.—Stricken Central America received additional reports of wholesale destruction of life and property in a hurricane which struck some days ago. The known dead in the two countries was estimated at 3,000.

## A HAPSBURG RETURNS TO VIENNA FROM EXILE

The first member of the royal house of Hapsburg to return to Austria from exile in 15 years, the Archduke Eugene (left), is shown in conference with Engelbert Dollfuss, Austrian dictator, soon after his arrival in Vienna. The Archduke had lived in Switzerland since the fall of the monarchy, when he refused to relinquish his imperial rights. He was greeted enthusiastically by people in Vienna.

## Here and There

One graduate of the Anglican Theological College of British Columbia and four undergraduates are out for a summer of adventure and color since embarking recently aboard Canadian Pacific coastal liner, "Princess Norah" for the Yukon. Her 100-odd passengers also included miners, prospectors and northern railway and steamship men going in for the season.

Portland, Oregon's 26th annual Rose Festival, world-famous for colorful pomp and pageantry, will be held June 11-14 next. The western zone of the Canadian Legion will hold its convention there as also the American Rose Society.

The Princess Elaine, popular Vancouver-Nanaimo ferry of the Canadian Pacific B.C. Coast steamship service, is back from overhaul with the very latest in lunch rooms installed aboard. It is 40 feet long and 18 feet wide, and is provided with lunch counter and tables.

General improvement in business is apparent throughout Canada although many problems still remain to be solved is the opinion of Jackson Dodds, general manager of the Bank of Montreal, who sailed for Europe aboard the Empress of Australia recently.

The Canadian Pacific 42,500-ton Atlantic flagship Empress of Britain completed her westward cruise of 30,316 miles last month on arrival at New York and sailed again for Cherbourg and Southampton to be fitted for her normal season sailings between Southampton and Quebec.

An English building, scotch terrier, two boxes of swan's eggs and four homing pigeons were among the Canadian Pacific Express shipments arriving at Quebec recently aboard the Duchess of York from Liverpool, Belfast and Glasgow.

"With a soundly administered unified system, Canada would be able to anticipate within a reasonable period of time, a balanced railway budget and would be able to finance any justifiable extensions which expanding settlement and development might in future demand," E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway, declared in a recent speech advocating unification, for administrative purposes of the two major railways.

## Duffield's Red-letter Day.

Every thing is all set for the celebration of Duffield's red letter day, their annual picnic event, on Saturday the 23rd. The baseball games promise to be the best, as some good teams have agreed to be present, and strive for the good prizes offered.

The other events, horse races, girls' basketball, wagon races, the horseshoe tournament; and not forgetting the competition for the P. Faulks trophy, for which the pupils from about a dozen schools have been entered.

When the boxing commences, a bunch of fine young chaps will be seen in the Preliminaries, with Kid Gruden and Wyn Burnett mixing it in the finals for 8 rounds.

The wrestling matches, in which M. Crutcher meets M. De Bleick, and J. Karvellas meets G. Knutson, are bound to prove very interesting events.

Numerous contests have been arranged for the young people who will be present.

A big dance in the evening will top off a big day's sports.

## The Municipal District of Inga No. 520.

### PUBLIC NOTICE

IS HEREBY GIVEN that there has been introduced in the Council of the Municipal District of Inga No. 520 a By-Law of which the following is a short synopsis:—"That in order to provide for the hospitalization of sick residents of that portion of the Municipal District of Inga No. 520 which is not already included in the Onoway Municipal Hospital District No. 7 and in order to carry out the provisions of the Municipal District Act and the Hospitals Act in that behalf. The Council shall enter into an agreement or agreements with approved Hospital or Hospitals for the care and treatment of sick residents of that portion of the District which is not already included in the Onoway Municipal Hospital District No. 7.

Which agreement provides for payment by the said portion of the District to said Hospital or Hospitals entering into the agreement the sum of seventy-five cents per patient per patient day for Public Ward patients.

The payment of such fees to relieve the Municipality from all or any further claim or liability for hospitalization of such patients."

And that a copy of same may be seen in each of the following places:—Office of the Secretary-Treasurer, Residence of the Councillors, Bright Bank P.O., Carvel P.O., Duffield P.O., Bolbora P.O., Heatherdown P.O., Keehill P.O., Onoway P.O., Stony Plain P.O., Rose Valley School, Connet School, Glory Hills School, Warden School, White Whale School, Blue Berry School, Manley School, Locknow School, Teumesh School, Cottage Lake School, Willingdon School.

And further that unless within thirty days from publication of this Notice at least fifteen per cent of the proprietary electors of the Municipal District petition the Council to submit such By-Law to the vote of the proprietary electors of the Municipal District, the Council will proceed to pass the same.

Dated at Duffield, Alberta, this 23rd day of May, 1934.  
JOSEPH REST,  
Secretary-Treasurer.

## Base Ball Games.

Local baseballers played a Hudson Bay team on the local diamond on the 18th and run up a score of 3 against the visitors' 12. Local boys' line-up: E. Mayer c, E. Enders p 1b, P. Enders p 1b, O. Oppertshausen 2b, O. Miller 3b, W. Rosman ss, H. Staub lf, John Biederweden cf, Alf Enders rf. Owing to the rainy weather and muddy roads, Walther League ball players did not keep their engagement at Holbora on Friday.

Pitching a no-hit and no-run game at Edmonton Beach on Sunday last, Johnny Biederweden, the well-known Concordia moundsman, led Walther League Nine to a 10-0 win over the Rosenthal team. Biederweden is a newcomer on the team, making his first appearance in the pitcher's box for this game, when he displayed a brand of ball hard to beat. It is understood that Johnny will be the regular W.L. hurler.

The local lunch kept their error score down to 4, and gave Pitcher Biederweden excellent support. Rosenthal, too, played good ball, but could not keep up with the hard-hitting W.L.'s. Gus Zucht officiated. Stony's line-up: E. Mayer c, J. Biederweden p, L. Miller 1b, O. Oppertshausen 2b, O. Miller 3b, Ed Enders ss, H. Staub lf, J. Enders cf, A. Enders and Walther Ulmer rf.

The local baseballers are billed to play at Duffield's Sports Day, Saturday next.

Walther League play Centrals on the local grounds next Sunday.

## NOTICE!

INGA M.D. NO. 520.

### IT'S THE WEEDS!

But they'll get you if you don't watch out. Session 18, Chapter 28, The Noxious Weed Act, 1932 amendment:

It shall be the duty of every person who is owner of any parcel of land and of every person who has any beneficial interest in any parcel of land and of every lessee, tenant or occupant of any parcel of land to prevent any noxious weeds from growing upon such parcel of land and to comply with all provisions of this Act for the destruction thereof.

### BYLAW No. 10.

The Council of the Municipal District of Inga No. 520, duly assembled, enacts as follows:

1—Any person committing a breach of any of the provisions of any of the Bylaws of the Municipal District of Inga No. 520, now in force, or which may hereafter come into force, shall on summary conviction thereof before a Police Magistrate or Justices of the Peace, forfeit and pay (except where other provision is specifically made therefor) a penalty not exceeding \$100.00 in addition to the costs of the conviction for each offence.

2—In default of immediate payment of any fine or penalty herein provided or specifically provided in any other bylaw or any penalty and license fee, where provision therefor is specifically made, and of the costs of conviction or of such penalty license fee or costs, as the case may be, imposed by the convicting Justice, the same shall be recovered and enforced as by bylaw provided. DONE AND PASSED IN Council this 22nd day of May, 1934.

Certified to be a true copy of Bylaw No. 10.

Signed, R. C. HOWAT, Reeve.  
Signed, JOSEPH BEST, Sec.-Treas.

### Brightbank News.

Members of Lucknow Athletic club have picked on Friday, June 29th, for their annual sports day and picnic, to be held on the school grounds. There will be horse racing, baseball games, a series of basketball matches, and numerous other kinds of sports. Lucknow Athletic club is noted for the good day's sports they put up; and those who attend on the 29th will not be disappointed. Of course, there'll be a dance in the evening.

### Holborn Happenings.

Holborn played Gramina here on the 10th, and 0 boy can Holborn play ball. Believe it or not, the boys are really picking up.

They run up against a tough one when they met Bright Bank on the 17th. Their pride was greatly dampened when the score showed 12 for Brightbank to 8 for us.

At the former game a great deal of rooting and hooting occurred. Tuesday, the 12th, a Peace meeting was held here by the 2 senior Locals. Mr Sieber delivered a fine address. A resolution was drafted and will come before the UFWA convention on the 21th.

A play called "High Horse" was presented here on the 15th. It was followed by a dance, which ended quite late. This entertainment was put on by the Lutheran Young People's Society of Edmonton.

### Los Angeles to Pouce Coupe.

The longest international highway in America is said to be the Sunshine Trail which connects Los Angeles on the south with the far-famed Peace River country in the north. This route is now completed for practically the entire distance as an all-weather highway, with the exception of a section on the northern end, which is improved earth road. The highway not only links California's orange groves with the wheat country in the Peace River district, but also connects the national park and mountain resorts of the western states with those of the Canadian Rockies in Alberta.

### Stony Plain and District

Mrs J. A. Barrie was taken to an Edmonton hospital on Monday, for treatment, for a fractured right arm and a badly wrenched left arm, the lady having tripped over a rug at her home at the Beach.

Mrs Huston left on Saturday on a visit with friends in Iowa.

As noted elsewhere in this issue, a change in the Prince Rupert train service took place this week. No change has been made in the running times of trains No. 1 and No. 2.

Jerry the Busman announces that his bus will run on Sundays, on the regular schedule, during the summer months.

Good progress is being made by the committee having in hand the preparations for the Sports day here on July 2nd. At the meeting Tuesday Evg. several sub-committees were appointed.

There will be Missionfest services on Sunday next at Immanuel Church, Rosenthal. Services at 10.30 a.m. and 2 p.m. Rev E. Krich, Rosevar, will assist the pastor, Rev G. Poetzsch, at the services.

Mr M. Schellenberger has just finished sinking a well for Mr. Whorley, south of town.

Mr Ed Danahauer, the well-known painter, is spending the summer at South Edmonton Beach.

BUTTER AND EGGS WANTED at The Royal Cafe.

### Spruce Grove News.

Mr Shinbein is having a well dug on his premises in town. Mr M. Schellenberger drilled a well for Mr Dupass, a newcomer in the Grove district.

Mr Pinchbeck is said to be at present on his way back from the Old Country.

On Sunday last, the 17th, Rev Father Alexis, O. F. M., of North Edmonton, opened the Devotion of the Forty Hours at 9.30 a.m., in St. Joseph's church.

Strawberry social at the J. Weissmuller store on Sat, June 23rd.

Mr H. Brox motor-d a party of friends to the Beach on Sunday in his new Plymouth roadster.

Several of the Grove's good horseshoe artists are going up to Duffield on Saturday; the \$10 offered in the horseshoe contest proving too good a prize to pass up.

Tenders will shortly be called by the High School board for the erection of the High school building.

### Tractor Races to be Featured at Western Fairs Next Month.

Visitors to the Western Fairs and Exhibitions next month will have the unique experience of seeing farm tractors streak around the race track at mile-a-minute speeds. One of these tractors—the famous Allis-Chalmers No. 999, which holds the world's speed record for tractors, will be driven by Louis Meyer, famous racing driver, who will use the tire low pressure Firestone Farm Tractor Tires. Meyer is the only man who has ever won three A.A.A. Championships and is one of the pair who have twice won the Indianapolis Speedway Race. Since their introduction several years ago, pneumatic tires for tractors have met with great success. All equipment manufacturers have adopted them and tests show that tractors with these tires are able to do 27 p. c. more work with 24 p. c. savings in fuel while the tractor life is extended 33 p. c. and repairs reduced by 50 p. c.
